Cycle tourism Sant'Antioco

Cycling in nature

We will discover the coast of the island of S. Antioco between white sand beaches and cliffs. We will immerse ourselves in the wildest nature among flowers and fragrant plants of the Mediterranean scrub. We will run on the road that was previously the railway from Calasetta, we will reach the city along the lagoon and Maladroxia and Coequaddus beaches. A path between sea, hills and countryside that will lead us to the Capo Sperone Semaforo, a wonderful panoramic point. We will return to the village by a beautiful path surrounded by nature, through the historic center of Sant'Antioco.
